Network14 is an innovative online sourcing channel helping direct Employers reach a diverse and motivated audience in a socially responsible manner. Our growing community of qualified and experienced Sponsors actively recommend and support Nominees from their own networks for advertised Assignments. Our unique Sponsor/Nominee approach delivers qualified insight and fact-based commentary in a credible and easily obtainable manner which aids better decision making. When a Nominee is successfully hired the associated Sponsor chooses a charity of their choice to receive the donation offered by the Employer. Offering value to the Employer and benefitting the world we live in, Network14 helps ethical Employers improve lives one role at a time.
