

Specialist Coatings Ltd

SPECIALIST
COATINGS
ISLE OF MAN

United Kingdom

Specialist Coatings Decorating Centre in Tromode stock the highest quality products for any application. Through our extensive research and due diligence, we provide products we believe to be the best in their field. From high performance paints and industrial certified coatings, to state-of-the-art spray equipment and dustless sanders... we only strive for excellence.

Specialist Coatings Ltd was set up by Ray Lister and Ross Walker originally to supply industrial coatings on the Isle of Man as many businesses were sourcing off-island.

As the company has grown over the last couple of years, a demand for high quality decorative paints has arisen and now Specialist Coatings have opened up a decorating centre within the Cubbin & Bregazzi interior design building. We are the exclusive Tikkurila suppliers on the Isle of Man and these next generation paints are proving very popular because of their superior qualities.

One of the main selling points is that these paints can be touched up months later and still blend in without 'flashing'. Tikkurila products are produced to such a high quality, they spray fantastically due the solids within them being milled to such a fine degree. Whether they are brushed, rolled or sprayed, the finish is second to none. We also stock other big brand paints - including Zinsser, Sandtex, Rustoleum, Teamac and Morrells to name but a few. Our technical team can produce paint specifications for all domestic and industrial projects ensuring the correct paint is used for the job.

~~Our in-store spray booth is proving very popular as customers can try out spraying~~

equipment before they buy and experience how easy the Q-Tech and Tri-Tech machines are to use. We set up the machines every Friday for anyone to come and have a go at spraying.

As a locally run business, we value every customer and their needs, and pride ourselves to offer friendly, expert advice for every customer no matter their business size or spend. We also have a state of the art, digital tinting machine which can tint paints to any manufacturers colour cards and offer all Island deliveries on orders over £200.

Unit 18 Tromode Industrial Estate, Douglas, Isle of Man, IM4 4QB.
