At Apollo Investment, we offer an end-to-end service in the NDIS investment space. The exclusive opportunities we put together for our clients offer high yields well over 8%, which translates to \$1000+ in weekly rental income. As part of our service, we also source National Disability Insurance Scheme or NDIS-approved tenants. All of this is backed by the federal government, making NDIS-approved SDA housing a great way to grow your property portfolio while helping Australians with long-term disabilities. Our hand-picked NDIS investment team will do all the work for you, including finding the right land and working with exclusive SDA builders to maximise yield and capital growth. Let one of the top NDIS service providers in Australia guide you today.
